

IN THE FIELD MINISTRIES

Proverbs 22:2 Rich and poor have this in common: The Lord is the Maker of them all.

—Winter 2006 ITFM Newsletter—

In 2006 we saw volunteers setup clinics, treating entire villages in Uganda for worms and a variety of parasites from the local water supplies. The bio sand filters that In the Field Ministries installed will stop much of this but they are intended to be a temporary solution. What they need for the long term is access to a local well with a hand pump that will provide clean safe water any time they need it. Providing wells is at the top of the list for ITFM in 2006. You can help! If you would like to travel with us to Africa this coming summer, let us know if you are interested, no experience necessary. Installing a well is a way to make an **instant** improvement in the quality of life of so many needy people at once.

The WHO (world health organization) estimates that a child dies every 12 seconds from a preventable water related disease such as dysentery, typhoid and chronic diarrhea.

This is who we are helping....

Meet Luyinda Lawrence Samuel (Sam Lawrence)

Sam has been a huge asset for us. He travels to the schools and orphan centers maintaining the sand filtration systems that we put in last summer to help clean their water. Sam insures that they are secure and working properly for the children. ITFM is inviting Sam to visit the US in April and May of 2006 for a hands on seminar on small scale well drilling in Houston, TX. Sam is our director of technical operations in Uganda. He will be available to speak to schools, churches and other civic groups. If you would like to meet Sam and hear about life in Uganda please give John or Kimberly a call at 425-888-3211. For more pictures and info. check out our website at <http://www.inthefieldministries.org>

2006 Fundraising Goals:

- Training for Sam Lawrence—Travel expenses & training class. \$3800.00
 - Man-portable well drilling rig. LS-300, plus tax & shipping, \$22,000.00
 - Uganda; on site installation of 2 permanent wells. \$4000.00 average for each well depending on location. Includes well head, pump, casing, filter, concrete, fuel, miscellaneous, small parts and local travel.
 - Child sponsorship through ICN: \$30 per month
- Total needed \$33,800
